

# iClimate Video Competition GoPro Sign-Out Sheet

This document is to make sure that any parties that rent one of the GoPros for the use of the iClimate video competition are held responsible for its use, damage, loss and return. If any damage or loss of the GoPro or supporting equipment should happen before the listed return date, the responsible parties must pay half of the replacement cost whether it be buying a new item or a technical repair. Minor damages that do not inhibit the device's functionality will not require the replacement procedure described earlier and will not result in surcharges. If the GoPro is signed out by a group of people, the individual who signs this sheet will be responsible for the surcharges. For returning the rented GoPro, the device must be returned before the date marked down on the bottom of this document. The GoPro and any given equipment can be returned to the McMaster Centre for Climate Change dropbox at the School of Geography and Earth Sciences main office (GSB 206, MCCC Mailbox) or to BSB 313.

By signing this document you give yourself the responsibilities written above.
